

Greece

Key energy balance aggregates, ktoe

Total energy supply and its components, ktoe

The difference between *Total energy supply* and the area chart is the *Statistical difference*.

Greece

Gross available energy by fuel, ktoe

Gross electricity production by fuel, GWh

*Other includes peat and peat products, oil shale and oil sands, manufactured gases, non-renewable waste, derived heat, chemical heat and non-specified sources.

Greece

Final energy consumption by fuel, ktoe

*Other includes peat and peat products, oil shale and oil sands, manufactured gases and non-renewable waste.

Consumption by sector, ktoe

* Industry includes agriculture, forestry, fishing and other non-specified.

* Transport includes international maritime and aviation bunkers.
